

Septic Care Incentive Program

Save up to \$450 on your next septic inspection, riser installation or pumping.

Follow these steps to participate in the septic care incentive program:

1. Choose a certified septic system service provider from the attached list. We recommend you compare costs of several service companies.
2. Schedule your service. Tell the service provider you are participating in Tacoma-Pierce County Health Department's Septic Care Incentive Program.
3. Fill in your information below. When the service provider arrives at your home, give them this form to receive:
 - ✓ \$125 off a routine inspection (required to receive other discounts below).
 - ✓ \$125 off riser installation (inspection required first).
 - ✓ \$200 off tank(s) pumping (inspection required first).

Important information:

- Savings are valid for properties with onsite septic systems in the Key Peninsula only. You must have a gravity or pressure distribution system. Not valid for home sale inspections.
- Septic systems require ongoing inspections. We will notify you when a routine inspection is due.
- Questions? Contact us at (253) 798-4788 or EHsepticssystem@tpchd.org.
